

## SEAT INSTALL MEASUREMENTS REFERENCE GUIDE

Class	Chassis	A	B	C
Briggs SR	AM29	102 cm	21.5 ± 0.5 cm	15 ± 1 cm
Briggs JR	AM 29	101 cm	20 ± 0.5 cm	16 ± 1 cm
Micro / Mini	C-28	90 cm	19 ± 0.5 cm	16 ± 1 cm
Junior	RY-30	99.5 ± 0.5 cm	20 ± 0.5 cm	16 ± 1 cm
Senior	RY-30	103.5 ± 0.5 cm	21 ± 1 cm	14.5 ± 1 cm
DD2	CRY-30-RX	104.5 ± 0.5 cm	21 ± 1 cm	14 ± 0.5 cm
Shifter	CRY-30	105.5 ± 0.5 cm	21 ± 1 cm	13 ± 1cm

**Disclaimer:** These numbers are strictly for a baseline setup and only to be used as a general guide. We encourage to test and move the seat as necessary to gain maximum performance from the BireART Product. The same measurements can be used with the Ricciardo Kart. These measurements are to be used with Mojo rubber, except for shifter, which measurements are based on MG Yellow rubber compound. For shifter, we recommend 12cm for KZ and 13.5 - 14cm for stock Honda.
